

BRISA™ PAINT

LIQUID GELS

WHAT THEY ARE

Thin white gel paints for crisp smile lines that last three times longer than enamel French manicures.

WHAT THEY DO

Create a cross-linking bond to Sculpting Gel and BRISA™ Gloss for permanent French manicures.

WHY YOU NEED THEM

- Easy: Paint-on alternative to sculpting permanent French manicures.
- Lasting: Create French manicures that last at least three times longer than traditional nail color.
- **Color Options:** Pure White-Opaque and Soft White-Opaque.

FEATURED INGREDIENTS & BENEFITS

Hydroxypropyl Methacrylate:

Monomer used to increase durability.

Silica Dimethicone Silylate:

Product thickener and opacifier.

Ethyl Trimethylbenzoyl Phenylphosphinate:

Activates the curing process. Absorbs light energy and uses it to promote monomers and oligomers joining together to create a gel enhancement.

DIRECTIONS FOR USE

- After applying BRISA™ Sculpting Gel, do not remove the top film.
- Create desired smile line.
- Apply BRISA™ Gloss.
- Visit cnd.com for complete Step-by-Step instructions.

CND offers comprehensive education opportunities. Check the education section of cnd.com for a course near you.

CREATIVE SUGGESTIONS

For a long-lasting pedicure, apply to toenails.
