

# GEL BRUSHES

## WHAT THEY ARE

Synthetic sculpting brush with durable acrylic handle.

## WHAT THEY DO

Allow for easy pick-up and product application.

## WHY YOU NEED THEM

To assure easy sculpting with smooth control.

## DIRECTIONS FOR USE

### Before Using:

- Dip brush into sculpting gel and pull out a small amount of product.
- Place brush onto a lint-free pad and work brush back and forth, removing any air bubbles and fully wetting brush.
- Visit [cnd.com](http://cnd.com) for complete Step-by-Step instructions.

### Storage:

Store horizontally in a sculpting brush case with a solvent resistant liner, or in a drawer designated for sculpting brushes, lined with a disposable lint-free towel. Avoid exposure to sun, UV or table lamps.

CND offers comprehensive education opportunities. Check the education section of [cnd.com](http://cnd.com) for a course near you.
