

## BRISA™ LITE REMOVABLE SMOOTHING GEL

The Ultimate CND Shellac™ Power Partner

An easily removable gel layer, that perfects and smoothes the surface of the natural nail. Applied before CND Shellac, it extends the wear of the CND Shellac service to three flawless weeks.

### FEATURES/ BENEFITS:

Like a foundation primer that prepares the face for flawless makeup application, Brisa Lite Removable Smoothing Gel provides a **glass-like surface** for CND Shellac, perfecting the nail's appearance and **extending wear**.

It is **EASY ON** with no filing of the natural nail, **EASY OFF** with no soaking, and provides **EXCEPTIONAL WEAR** by lasting three weeks.

### HOW TO USE:

Brisa Lite Removable Smoothing Gel is a professional only product. After cleansing the natural nail with ScrubFresh™, the Nail Professional applies Brisa Lite Removable Base Coat and cures it for 10 seconds under the CND UV Lamp, then smoothes Brisa Lite Removable Smoothing Gel on with a brush and cures it for two minutes. Apply two thin layers of CND Shellac color and then cure for two minutes each. Finally a thin layer of CND Shellac Top Coat, to seal in the color, is cured for two minutes.

The gel removes easily in 15 minutes with CND Shellac Nourishing Remover and Remover Wraps.

### AVAILABILITY:

Brisa Lite Removable Smoothing Gel is available worldwide to Nail Professionals in February 2013.
